The Intuos family

### What are Intuos tablets?

Intuos tablets are peripheral devices that plug into any PC or Mac via USB port, allowing schools to add pen input and enhanced Multi-Touch capabilities.

### What are Intuos tablets used for?

Intuos tablets serve the needs of K-12 learning environments, delivering pen input for creative work, such as digital drawing, sketching, painting and design, and other computer activities in support of math and reading subject matter.

### How do they work?

Pen input enables enhanced control with creative projects, while Multi-Touch input makes it easy to navigate and get hands-on with projects.

### Why sell them?

Intuos is the ultimate peripheral device that complements creative software, digital imaging, computers, printers and other technology for labs and the classroom.

### Reasons why teachers and schools choose Intuos tablets:

- 1. Prepare students for higher education—** Graphic design, art, photography, architecture, computer graphics and industrial design majors in college all rely on pen input for creative control.
- 2. Enhance K-12 computer-based learning—** Allow students to write, edit, and collaborate online. Find new ways for students to demonstrate proficiency and show their work.
- 3. Get more value from technology investments—** Maximize the functionality of desktop computers and creative software already in schools, such as those from Adobe®, Corel®, Autodesk® and more with Wacom.

### Sales Tips

1. Intuos tablets can be used in any lab or classroom setting and with any software (PC or Mac)
2. In K-12, all quotes for creative software, such as Adobe Photoshop, should also include Wacom Intuos tablets as a recommended product add-on.
3. For college and university setting, recommend the Intuos Pro pen tablet. Already, hundreds of colleges have standardized on Intuos Pro in art, design, and game dev programs.

### Probing Questions to Ask:

- Does your school/institution/district have computer labs where students use creative software such as Adobe, Autodesk or Corel?
- Do you already have Wacom tablets? How are they being used?
- Are your teachers using Wacom tablets for teaching and/or presenting curriculum? Are they using a flip classroom style of teaching?

Designed for CREATIVITY — just connect and express yourself naturally, without limits. Have students experience a more expressive and intuitive way of working with your computer. With the innovative Wacom Intuos Creative Pen Tablet, pressure-sensitive pen and Multi-Touch\* capabilities, students can create digitally with the

natural comfort, precision and feel of traditional brushes and pencils. They'll have fun from the very first moment and take their creativity, sketching, drawing, painting and photo edits to the next level – it's never been easier.
