Wireless kit included

What are Intuos Pro pen tablets?

Intuos Pro pen tablets bring natural pen control for digital content creation to any Mac or PC computer (USB connection).

What are Intuos Pro tablets used for?

Intuos Pro pen tablets improve accuracy and speed production time for photo editing, design and art creation. When working with digital assets, it's the most natural tool that offers increased comfort and control.

How do they work?

Intuos Pro pen tablets provide cursor control in any application, and the pen is both pressure- and tilt-sensitive. Pen pressure sensitivity is supported in many applications, including those from industry leaders such as Adobe,® Autodesk,® and Corel.® Multi-finger touch allows the student or teacher to pan, scroll, zoom and navigate with ease.

Why sell them?

Excellent attachment opportunity to creative software, computers, printers, and other technology for labs and the classroom.

Reasons why students and schools choose Intuos Pro professional pen tablets:

1. **Prepare students for future careers**— Intuos Pros are used by professionals in graphic and industrial design, illustration, engineering, animation, architecture, and photography.

2. **Get more value from technology investments already made**— Schools can maximize the functionality and use of creative software (from Adobe (Photoshop®), Autodesk®, and Corel®) and desktops already deployed in labs and classrooms.

3. **Best-in-class technology**— Intuos is the best available tool for students to succeed within digital content creation programs and curriculum.

4. **Special academic discounts**— Wacom offers discounts on single units and lab packs.

Sales Tips

1. Intuos Pro can be used with any software, in any home, office or school setting with any PC or Mac computer.

2. All Adobe quotes should also include Wacom Intuos pro tablets as a recommended product add-on - simple attachment!

3. Institutions may already be using Wacom tablets to some degree but may need more or need to add to other labs - ask!

Probing Questions to Ask:

- Does your school/institution have computer labs where students use creative software such as Adobe, Autodesk or Corel? What departments have labs?

- Do you already have Wacom tablets? How are they being used?

- Are your teachers using Wacom tablets for teaching and/or presenting curriculum? Are they using a flip classroom style of teaching?

INTUOS® pro

Designed to meet the high performance demands of creative professionals and photo, art, and design enthusiasts, Intuos Pro combines Wacom's finest pen tablet experience with Multi-Touch input in a single device. Students can immerse themselves in a natural, intuitive workflow, alternating between using multi-finger touch to position and navigate artwork and the pressure-sensitive pen to precisely sketch, paint, retouch, and edit their ideas. The time-saving ExpressKeys,™ customized for many popular creative software, can be easily changed for their favorite application-specific shortcuts and modifiers, while the innovative Express View display provides an on-screen reminder of the keys' settings. With a simple USB connection, Intuos Pro brings natural pen and touch control to a student's or teacher's PC or Mac computer and for more freedom, the Intuos Pro comes with a wireless kit.
