

## Adobe Creative Cloud licensing for nonprofits

Adobe Creative Cloud gives nonprofit agencies access to the latest industry-leading creative software for design, web, video, and photography—on the desktop and mobile devices—plus seamless ways to share and collaborate through access to online services. And, nonprofits receive the same discounted prices as Adobe's Education customers.

With Creative Cloud, your organization's management and staff get all these benefits:

- **Software that's always up to date**—Licenses include updates to Creative Cloud applications as soon as they're released, so you'll always have access to the latest creative tools and features.
- **Flexible licensing options**—You can get access to the complete set of creative apps or just a single one, with or without services.
- **Collaboration that's built in**—With an option to add online services, small workgroups and teams can collaborate and share with ease.\*
- **Simplified deployment and management**—A web-based Admin Console makes it easy to purchase additional seats, add users, and manage software updates.\*

Now more than ever, the world needs creative ideas. When nonprofit organizations become creators of digital content, you can amplify ideas and increase your impact. The Adobe Education Exchange helps ignite creativity with professional development opportunities, learning resources, and peer-to-peer collaboration.
