

Dell Order Confirmation Process

Access your Dell delivery information quicker with a new confirmation email. Now when purchasing Dell products, confirmation emails are sent to the email attached to The Douglas Stewart Account. If the order is placed before 11 AM CT, expect to receive an email confirmation from Dell the following business day. If the Dell order is placed after 11 AM CT the confirmation will be sent two business days later.

If the order is purchased after 11 AM CT and needs to be expedited, please contact dellcustserv@dstewart.com.

If you have not received a confirmation email after your order has been placed, please contact your Douglas Stewart Account Manager.

Use this confirmation email to keep track of your order status. The email includes the customer number, PO number (customer PO number located in the Purchase Information), Dell Purchase ID, and more!

Click view more to obtain current shipping and tracking information once your purchase has shipped. See an example confirmation email to the right.
